

EDMONTON, THURSDAY, AUGUST 28, 1913.

TWELVE PAGES

IMPERATOR'S FIRE AND STRIKE

Largest Vessel Afloat in flames and Passenger Passengers in Panic.

SECOND OFFICER KILLED AFTER PROVING A HERO

Conflagration Not Connected With the Trouble With the Longshoremen; Carelessness is Held to be Responsible.

New York, N.Y., Aug. 28.—The steamship *Imperator*, largest vessel afloat, was swept by fire early today, as she lay at her dock in Hoboken, with crew and 1,151 alien passengers aboard. Second Officer Gohrman, who led the crew into the hold to fight the flames, was cut off from the men enveloped in a cloud of smoke, and suffocated.

His body was found an hour afterwards untouched by fire, and brought ashore.

A fleet of fire fighting-craft augmented the apparatus on shore, surrounding the ship and poured tons of water into her hold. When the fire was checked at 8 o'clock the great vessel had listed 15 degrees.

The small army of men who were aroused from their sleep by the crackling of flames rushed panic-stricken to the pier. Most of them, however, remained in the night hold and the pier. None of the alien passengers had been inspected by the customs or health authorities. Immigration authorities rushed to Ellis Island, at the earliest possible moment, this forenoon.

The ship was dark, with all sleepers aroused on which, when a quick alarm was sounded. The crew of 1,150 men were in their places within a minute. Every compartment was ordered closed except those which it was necessary to leave open for the alien passengers to get ashore.

This stampede of sleeping passengers toward the deck checked for a moment the fight against the flames. The ship's officers and hundreds of the crew lined up in two columns along the route to safety, ended the terror-stricken men and women to the pier.

Call For Outside Help. When the ship cleared the entire force turned the hand to extinguishing the flames. For three-quarters of an hour they fought the fire with only the ship's own apparatus. Then the Hoboken fire department was notified and a general alarm was sounded.

In the first sharp attack on the flames, second officer Herman Gohrman, caught in the withering breath of a blast of flame, was blown from the door by which he had entered. His companions were driven back by the flames again, and the wall of smoke kept them from rescuing Gohrman.

Gohrman, like the rest of the fire fighting force, was equipped with hose masks, but the flames, which served as guide lights. Through clouds of smoke the Hoboken firemen rushed. The dining saloon of the second cabin suffered the greatest damage from smoke. The handsome appointments of the saloon were a wreck when the smoke cleared away.

Boats from New York, a fleet of big, and another battery of fire fighters from Hoboken rushed to the pier. A dozen tug boats nearby were in readiness to tow the steamer out of the stream as the flames momentarily threatened to destroy other vessels.

By 10 o'clock there were only two streams on the blaze and it was extinguished. Supplies Made Useless. Seaman Stumpf, thought to be dead when he was found, was revived at a hospital. He is seriously injured. Officials of the line estimated that the damage to the vessel itself would not be great.

Great quantities of supplies were (Continued on Page 2)

WEALTH DESIRE Works Against Service of God

Dean Robinson Explains Why Young Canadians Not Entering Ministry.

Winnipeg, Man., Aug. 28.—This morning's session of the provincial synod of the Ecclesiastical province of Rupert's Land was taken up with an address by Dean Robinson, warden of St. John's college and the reports of colleges.

Dean Robinson greatly deplored the lack of native born candidates for the ministry and gave it his opinion that the reason was to be found in the desire for wealth, the young Canadians paying more attention to money than to the service of God.

The feature of the college reports was the report of the new Emmanuel college, Saskatoon, which was presented by Rev. Principal Lloyd. This report showed splendid progress and was enthusiastically received by the synod.

The report of St. Chad's college, Regina, was presented by Archdeacon Doble and it stated that since the inauguration of the college, 23 men have received their training. At the reception of the college reports Rev. Principal Lloyd on the splendid account he was able to give of Emmanuel college, in which Dean Robinson joined.

IMMIGRATION TO BE VERY LARGE

Walter V. Murlin of Wetsaskin Returned From Old Country Yesterday

Walter V. Murlin, of Wetsaskin, who has been touring England, Ireland and Scotland for the past six months, arrived in the city this morning on his way to his home in Wetsaskin.

During his tour, Murlin has visited all the principal cities in these countries and states that never before did he have such a good impression as to the possibilities offered by Canada and especially in Alberta.

"The people in the old lands have only just heard of Alberta," said Murlin, "but they seem to have a complete knowledge of the land, and what it offers. There will be an enormous exodus from Scotland and Ireland, and a large number of the immigrants here are already making plans to come to Canada this fall. The majority of them have money and are prepared to risk their money on the land, and what it offers. I am confident that they will make a success."

Visited Continent. During his tour, Murlin also held brief visits to Paris and Berlin, and speaking of financial matters, stated that the Canadian while his money was available for the purchase of bonds and debentures when there were, nevertheless, securities from Western Canada were looked upon very favorably. It was not his question as to the state of conditions in Alberta, for they were no worse here than anywhere else. The great whole problem of the future of the Balkan war had forced financiers to conserve their finances.

Interviewed by Mr. Murlin, a number stated that the settlement of the financial crisis would mean the loss of the financial position of the world, and the present emergency would be a thing of the past.

OFFICERS SEE FOUR MONTH'S WAGES

Sam Wright and J. S. Edwards Start Action in Court to Secure Pay.

Samuel Wright and John S. Edwards, the two members of the city police force who were recently discharged by Chief Carpenter, today started the statutory papers starting a suit against the corporation for a month's wages and then from the date of their dismissal.

WESTERN CANADA CROP IS HEAVILY FREE OF DANGER

About Half the Yield is Now Under the Binder or Has Already Been Cut.

HEAVIER FLOUR RATES, GREATER LIVING COST Purchaser Outside the Dominion Would Not Be Affected Farmers Would be the Ones to Feel the Extra Pinch

Winnipeg, Aug. 28.—"I should say that the crop in Western Canada was very nearly out of danger," was the remark last night of Hedy Shaw, managing director of the Maple Leaf Milling company, who had been on a tour of the west.

Mr. Shaw mentioned that from what he could gather, nearly half of the crop is now under the binder or already cut, and the prospects for a bountiful harvest seem to him to be excellent.

Speaking of the rumored increase in the freight rates on flour and the possible effect of such increase on the flourer, Mr. Shaw said: "It naturally follows that the miller is at present anxious to grind the flour at the point nearest the seat of production of the grain and should be prepared to carrying the flour to it would affect the trade injuriously. To the consumer of Canada, any increase in the carrying of flour would, of course, mean an increased cost of living, the more so, as such increase would not affect purchases outside the Dominion to any extent. It would have to be paid by the farmers."

BEARING LOAD OF SHIRTS GALICIAN GRABBED BY COP

Found Emerging From Back Window of Store With Varied Assortment of Clothes, Thief is Arrested by Policeman

Saskatoon, Sask., Aug. 28.—As he was emerging from a rear window of M. Volansky's store on First avenue yesterday, a thief was grabbed by a policeman. The thief, who was carrying a large bundle of shirts, was seen to be making a dash for it.

This man is not supposed to be a member of the gang who have been operating in Saskatoon for the past two weeks, three of whom were arrested yesterday, but a supposed to be making a "long" sort of his own.

As far as can be ascertained this is the first arrest of a thief in Saskatoon, he having followed the profession of railroad construction in the past.

SERVED FIVE MONTHS WITHOUT A SENTENCE

Bole Two Bags of Oats and Was Committed for Trial—Reese Spent Five Months in Jail Without a Sentence

Through the action of the police magistrate in having committed him for sentence to the district court, instead of sending him to the police court, W. Reese, charged with the theft of fodder from the city of Regina, was kept in jail since the beginning of July. Today Reese pleaded guilty to the theft and was released on suspended sentence.

Reese admitted that he had appropriated two bags of oats from the city messenger, for whom he was working, but stated that the company were considerably in his debt for wages. Reese maintained that he had to feed the messenger with his own money, and as the City Messenger Company was in arrears to him, he considered that he was perfectly justified in taking the oats.

Taking into consideration all the circumstances of the case Judge Taylor released Reese on a suspended sentence of five months.

GIMCRACK STAKES WON BY HULTON'S STERNWAY

Historic Old Country Race Provides Close Finish to the Shot Takes Second Place

London, Aug. 28.—At York today the historic Gimcrack stakes, 2,100 yds. long, was won by Hulton's bay colt Sternway, by a margin of one and a half lengths. The race was a very close one, and the winner was a very good one.

FAVORS CENTRAL BANK

Baron Huggins, President of the Chase National Bank of New York, Chairman of the Currency Commission and the American Bankers' Association, who made a strong speech before a conference of bankers and clearing house delegates in Chicago, in which he opposed the Owen-Deas Currency bill now pending before congress.

Mr. Huggins strongly favored the adoption of a central reserve bank plan.

U.S. CAPITAL TO SEEK FIELD IN DOWN

Wilson Administration is Forcing Manufacturers to Come to Canada.

Conditions in States Have Changed Greatly Manufacturers Will Open Branches and New Houses Throughout the Dominion to Meet the New Market's Demands.

Robert O. Hobbs, vice-president of the Providence Trust company, who held offices in Philadelphia, Pennsylvania, arrived in the city last evening and is spending the day in studying the financial and commercial conditions of Edmonton. This morning he paid a visit to the parliament buildings and was taken for a drive around the city.

Interviewed by a Capital reporter Mr. Hobbs stated that the conditions of the United States are tending to force men of capital across the lines as well as the ordinary settler. Chief among the items which he predicts will cause a wholesale migration across the line is the Wilson administration's attitude with respect to the tariff and the proposed amendments to the banking law.

In addition the manufacturers of the United States have in many instances covered their fields as far as the United States is concerned and naturally look to Canada as providing the logical opportunity for the establishment of branch houses and factories.

United States government, assisted by the administrations of the different states, is doing everything in its power to retard the flow of emigration to Canada but to date have made little headway in this matter.

Mr. Hobbs has been in Canada for three weeks entering the Dominion at Montreal and traveling by way stages to Edmonton. He was greatly impressed with the grain crops in the prairie provinces and expressed the opinion that Alberta and Saskatchewan would in a few years be the main wheat producing section of the continent.

BURIED IN RUINS ARE PERSHIPS IN COLLAPSED STORE

Scores Are Picked Into the Basement and Some Lose Their Lives.

SOME OF MISSING ARE NOT ACCOUNTED FOR When Appalling Peterboro Disaster Becomes Known Hundreds of Volunteers Go to Rescue of Victims.

Peterboro, Aug. 28.—At least four and perhaps six lives were crushed out this morning when a section of the J. J. Turnbull company collapsed. Eight persons were injured.

The casualty list is not much greater than the number of lives lost. In addition to nearly 100 clerks employed there were many customers in the store, while a score of workmen were employed on the construction of their lives.

Those who were not deeply buried in the ruins were quickly taken out and given first aid attention by the doctors and nurses who had been hastily brought to the scene. Relatives and friends of those known to have been in the building soon hastened to the spot, many weeping hysterically until they became assured of the safety of their loved ones.

It was not until after two hours' work that the dead bodies of three unidentified women and the body of a man named Oble, one of the construction gang, were taken out.

List of Victims. Miss Dorella Bessie, clerk, cannot be accounted for. Captain F. A. Sisson, salesclerk in the ready-to-wear department, escaped.

The dead are: Miss Lilian Bolden, clerk; Mrs. Fumley, of Newwood, a customer; Guffy, a laborer; two unidentified women.

Missing: Miss Dorella Bessie, clerk. Extensive repairs were being made to the Turnbull store. A partition wall had been removed with the result that the three-story departmental structure was weakened.

Thirty feet of the outside wall on the northwest corner suddenly fell away carrying the workmen on the outside and the clerks and shoppers within in two to injury or death.

Rush to Rescue. Two men were working on the third floor and a crane was on the Turnbull structure. The plan was to place a new front on both buildings and to demolish the old one.

Immediately the collapse occurred 50 employees rushed into the street in a panic stricken state.

When the extent of the disaster was realized, 100 volunteers at once began to search the ruins and the hospitals and the city morgue for the missing.

The Hague Was Gaily Decorated—Andrew Carnegie Will Participate in Ceremony.

The Hague, Aug. 28.—The capital was gaily decorated today in honor of the ceremony to be held in the city of the peace treaty.

Many notable men, principally diplomats, were here from other countries to attend the ceremony.

September 16 is Date of Opening of Legislature

Decision is Reached as Result of Meeting of the Cabinet Council.

At a meeting of the cabinet council held last evening, Tuesday, September 16th, was designated as the opening date for the next session of the Alberta legislature. At this session the regular business which usually comes before the assembly will be taken up, but the most important matter to be decided will be the hanging fire for over two years.

As to just what disposition will be made of this question the decision has as yet been reached, and will not be discussed until the legislature of the province have assembled.

It has been rumored that the Canadian railway stood ready to take over the Great Waterways charter, but this statement has been officially denied by Premier Sifton.

With the date for the opening of the session settled, everything is hurry and bustle in the parliament buildings. The different cabinet ministers with their staffs are busily engaged in getting the work of their respective departments into shape so that there need be no delay in carrying out the business of the province once the legislature has convened.

Even the carpenters, stone masons and decorators are caught up in the spirit of the times and are rushing their work as rapidly as possible in order that the buildings may be complete by the opening day of the session.

SECOND TRACK READY IN WEEK

Eastern Track on High Level Bridge Will Be Ready by Next Wednesday.

The superintendent of the street railway has stated this morning that he expected to have the second track across the high level bridge ready to put into service next Wednesday. As much of the work as possible is being done this week, but the work will not be completed until the next week.

The temporary wooden bridge across the C.P.R. track on the south side has been completed some days ago, and the street railway will be able to use it.

The surfacing at the intersection of Fifth street west and Wayne avenue is being taken in hand in a few days the cars along the high level will be routed down Wayne avenue as a better service than is now being given.

YARDMAN MEETS DEATH UNDER ENGINE WHEELS

He is Caught Between a Piece of Projecting Timber and a Box Car and is Thrown Under a Passing Train.

While engaged in switching operations at the G.T.P. freight yards last night, Clifford Mille, a yardman, was instantly killed by being thrown under the wheels of the engine of a passing train. Mille was working on one train when another train passed on the opposite track.

Mille was caught between a piece of projecting timber and a box car, and then thrown under the wheels of the engine of a passing train. Mille was working on one train when another train passed on the opposite track.

Minister of Interior Listens to Deputations, Attends a Banquet and Leaves Town at Two.

Regina, Aug. 28.—Hon. Dr. Roche arrived here at 8 o'clock this morning and immediately set to work receiving deputations, the principal amongst which was a large one from the south-western country, who seek certain improvements in ranching conditions.

WILSON FIGURES PERTAINING TO BEING CANDIDATE

Conclusion Reached Because of Latest Declaration Made by Gamba.

UNITED STATES WILL NOT CHANGE DECISION Constitutionalists Never Would Lay Down Their Arms Unless the Present Provisional President is Eliminated.

Washington, D. C., Aug. 28.—John Lind was early today instructed to return from Vera Cruz to Mexico City after President Huerta received a message from him described as "very optimistic."

While administration officials were silent as to the next move, the general understanding is that a way appeared to be open to the further discussion of disputed points, such as the elimination of Huerta.

Wilson Won't Yield. Washington, D. C., Aug. 28.—Senator Gamba's note of August 26th has not been received officially here today, but, upon a summary transmitted to Secretary Bryan by John Lind, administration officials declared that the United States would not yield on its demand that Victoriano Huerta should not be a candidate for president of Mexico.

Senator Gamba calls attention to a clause in the Mexican constitution which prohibits a constitutionalist chosen succeeding himself, and charges that the United States was over-suspicious in thinking that Huerta would enter the race.

Administration officials here, in answer to the demand that they apply that clause of the constitution to Huerta was in fact a recognition of the fact that Huerta does not intend resigning in favor of General Trevino or some other, so that he might become a candidate for president of Mexico.

Considered a Declaration. Government officials here further insist that Huerta is not a candidate for president of Mexico, notwithstanding the fact that he is a constitutionalist chosen succeeding himself, and charges that the United States was over-suspicious in thinking that Huerta would enter the race.

There is, in view of the administration officials here, also no guarantee that Huerta will not resign in favor of General Trevino or some other, so that he might become a candidate for president of Mexico.

IMPERATOR'S LULL LUCKY ONES; FIRE AND STRIKE

(Continued from Page One.)

made useless, however, by the flames, smoke and water.

Nearly 2,000,000 gallons of water were poured on the fire.

The company announced that the steamship would sail Saturday and that the damage would be repaired as fast as possible at sea.

The walls and sided fittings of the second cabin were smashed and dark, its only rugs and carpets sodden, its furniture scorched, blackened and broken.

The damage to the second cabin, according to estimate, was greater than to the provision room where the fire started.

Longshoremen on Strike.

One thousand longshoremen employed by the Hamburg-American line, the Imperator's owners, went on strike for the eight-hour day and the vessel's arrival. Their places were filled by men from Brooklyn docks and the strikers were told that they would not be taken back.

Others of the line said, however, that they believed the strike was in no way connected with the fire. Some one's carelessness, they thought, had been responsible.

The Imperator has suffered several mishaps, more or less serious since her launching, May 29, 1912.

Her maiden trip was postponed from month to month, first because of ground while on her way to Hamburg and then because of trouble with her turbines.

A genuine explosion occurred on board the vessel April 24th.

Reports in May from Hamburg, and the Imperator had been gravely damaged by vandals.

SIX ARE SHOT IN OHIO LABOR RIOT

Shotguns and Revolvers are Used in Melee—Autos Employed in Fight.

Steubenville, Ohio, Aug. 28.—Six men were shot and two probably fatally wounded in a riot at Steubenville, Ohio, today.

The riot started when the guards fired into 2,000 strikers who threatened to break the mill.

The most seriously injured were Joseph Miller and John Doran, strikers.

Twenty strike breakers left the mill square in this city for the mill. They were accompanied by mill guards in autos. A crowd of men and women followed, shouting and yelling.

Near the mill entrance, threats were made by persons in the crowd to attack the plant and several in front moved as if to carry out the threats.

This was followed by a volley from the autos.

Shot guns and revolvers were used. Chief of Police Hauser, who was in the crowd and trying to restore order, was one of the first men hit. He was seriously injured.

RAILWAY BOARD BLOCKS ATTEMPTED RATE RAISE

Millers Objected to New Tariff Which Was to Have Taken Effect Sept. 1 and Board Reduced It.

Ottawa, Ont., Aug. 28.—An effort on the part of the railway to increase the rates on grain and grain products between points in Eastern Ontario has been blocked by the railway board.

The new rates which were to come into effect on September 1, provided for an increase of from one to six cents per hundred weight.

Strong objection was taken to the increases by the Dominion Millers' association, and the Campbell Milling company, of Toronto, while the shippers of Montreal had called a meeting to make a protest.

Yesterday the railway board decided to notify the railway that the new tariffs must stand over until the tariff sitting of the board of railway commissioners on September 10th, when the railways will be asked to show cause for making the increase.

The proposed new rates do not affect points west of the Great Lakes.

FLYING DUTCHMAN FACES DEATH WITHOUT TREMOR

Henry Wagner, Goss to the Scaffold Calmly and Quietly—Taken Thirty Seconds to Swing Him Into Eternity.

Vancouver, B.C., August 28.—Henry Wagner, nicknamed "Flying Dutchman," maintained his reputation for nerve and coolness this morning when he walked unshaken to the gallows without an apparent tremor as he swung into eternity.

Hungarian Ellis had the arrangements so perfectly made in the little court yard four miles out of Vancouver that only 30 seconds elapsed from the time that Wagner stepped resolutely into the jail yard until the trap was sprung.

The condemned man was allotted only an unshowered and overalls. His face, unshaven for several weeks, and his long hair, gave him a very wild appearance.

Green, of the Salvation Army, accompanied him to the scaffold. Wagner made no confession, but left a letter to his wife who lives in a cabin on Masquett Island.

Last night, the minister of Cordoba Westaway, suffered a fit and passed a very uneasy night. Towards morning he slept, and before being hanged this morning took a cup of coffee. A week ago he attempted to swallow his brains out against the cell wall, for he had boasted that he would never be executed.

WHEAT CAN BE GROWN ALL NORTH COUNTRY

Indian Agent at Fort Simpson Brings Samples of Wheat to Edmonton.

SAYS ALL GRAINS GROW ABUNDANTLY AT FORT

Soll in Neighborhood of Fort Simpson is Quite Different from the Land in Central Alberta and is Rich.

Fort Simpson is located 300 miles north of Smith's Landing, and over 1,000 miles north of Edmonton and yet the samples of wheat, corn and oats, which Mr. Card brought with him, compare very favorably with those in central Alberta.

Mr. Card had a quantity of seeds sent up from the Ottawa experimental farm, and the crop proved to be an excellent one, over 300 bushels of oats being obtained.

Over 200 bushels of wheat were also obtained, and the quality of the wheat seed having some amassing in transit, the amount of wheat obtained was much smaller than the quantity in proportion.

Last year there was no summer frost at Fort Simpson until September 22nd, and the crop had been safely harvested, about at Smith's Landing, 500 miles further south, there was a frost of two or three days.

The samples of grain which Mr. Card has brought with him will be handed over for distribution by the Dominion public department, and should serve as a splendid advertisement for a country which, by the great majority of the general public, is regarded as a barren and useless wilderness.

Made Close Study.

Mr. Card, who is registered at the Royal George, has made a close study of agricultural conditions in the Fort Simpson country. The soil, he stated, is quite different from that of central Alberta, and the lower Peace River country, being sandy loam. The soil, he added, closely resembles the most fertile parts of Ontario, and is admirably suited for truck gardening.

This section of the country is rich in all kinds of vegetables, cabbages, in particular, being such a heavy crop that he was unable to use them all.

In former days, Fort Simpson, which was an Indian reservation, was a very important point, being the head of the main artery of the north.

This section of the country is rich in all kinds of vegetables, cabbages, in particular, being such a heavy crop that he was unable to use them all.

In former days, Fort Simpson, which was an Indian reservation, was a very important point, being the head of the main artery of the north.

Mr. Card, who is registered at the Royal George, has made a close study of agricultural conditions in the Fort Simpson country. The soil, he stated, is quite different from that of central Alberta, and the lower Peace River country, being sandy loam. The soil, he added, closely resembles the most fertile parts of Ontario, and is admirably suited for truck gardening.

BABIES DIE ON TRAINS COMING TO EDMONTON

Both Were Under Six Months Old—One Was Coming From West in Charge of Nurse.

Two babies, both under the age of six months, died on trains last night while entering the city. Both children were being hurried to this city for medical aid, passed away just as the train pulled out of the city limits.

One of the children came from west of Edmonton in charge of a trained nurse, while the other was being brought from Fort Saskatchewan.

GRAND CROSS FOR CARNEGIE.

The Hague, Aug. 28.—The Grand Cross of the order of Orange Nassau was conferred on Andrew Carnegie yesterday by Queen Wilhelmina of the Netherlands, in commemoration of the inauguration of the Palace of Peace, which takes place tomorrow.

THE PROHIBITION OF WHIPS.

They say abolition has been banished by certain Pittsburghers to the law prohibiting the manufacture and sale of horsewhips. The agitators argue that the whip is not necessary, that humane drivers do not use it to punish their horses, and that humane drivers ought not to have it, that wise drivers know how to get enough out of their horses without it, and that other drivers use it to overwork their horses. All of which latter.

Probably it applies to most horses, but there is the balky horse, and the horse given to backing up when alarmed. If the whip is abolished, the god of the plowman will likely be substituted—and the last sale of the horse in that event, will be much worse than the first. Moreover, as long as clubs grow prohibiting the manufacture of whips, it is likely to reach the root of the trouble—which, by the way, probably results in the nature of the driver, don't you think?

POSSIBILITY.

We may live without poetry—most of us do.

We may live without art and find happiness too.

And we might get along, notwithstanding our wrongs.

If there were never any more popular songs.

—Judge.

The Family Doctor.

"I'm the family doctor."

"But I thought you were a veterinarian."

"So I am. But their family consists of a French terrier, a St. Bernard and a Chinese pointer."

John Bentzen, assistant pastor of Temple Baptist church, Los Angeles, recently baptised his own father.

In 1912 United States makers produced 11,509,700 kegs of wire nails of 100 pounds each.

NEW OFFICE BLOCK ON KINISTON AVENUE

E. S. McQuaid Will Erect New Building For Stores, Offices, and a Hall. Cost \$150,000—Other Permits Issued.

E. S. McQuaid has taken out a permit for the erection of a \$150,000 building on Kinistoun avenue, lot 19-20, block 29, R. 1, 14. The building is intended for stores, offices and hall. The plans are being prepared by W. D. Cronin and it will be erected by McQuaid and his company. Permit has also been issued to the same company for the erection of a building on the corner of Kinistoun and 14th streets, between Second and Third streets. The three American company have taken out a permit for the erection of a lumber shed on the Bywater estate at a cost of \$15,000.

MOWAT ON JOB MORTALITY.

A. N. Mowat, the new auditor, will commence his duties next May 1st. Since severing his connection with the H. B. Mowat & Co. he has been spending his time on a ranch at Alder Creek.

ALDER CREEK LEAVE CITY.

Almerdon Smith and Walsh left the city yesterday. Almerdon Smith intends spending the winter in Banff, and Walsh is taking his family to the coast for a holiday.

DAILY MAIL FOR HIGHLANDS.

Commencing today one mail each day will be delivered in the Highlands. The mail carriers will be required to deliver the mail at the rates and making the first delivery.

REAL GENEROSITY.

Princess Louise of Belgium has been presented with a diamond necklace valued at \$100,000 now to show that she is a generous woman.

Their generosity was shown by the creditors—Cleveland Plain Dealer.

LONGEST LIST OF CASES YET BEFORE COURT

Alleged Insane Man Believed Neighbors Were All Trying to Kill Him.

RUNAWAY WIFE RETURNS TO INTERDICT HUSBAND

Max Bloom Arrested in Medicine Hat Well Known in Edmonton—May Have Jewels Stolen in This City.

The longest docket which has been before Inspector Bock is the one which opened this morning at the sitting of the police court. Fourteen drunks faced him when he took the bench, all being disposed of, except one who pleaded not guilty, he being remanded till tomorrow.

An Insane Charge.

The case of Wm. Hartwick charged with being insane took up considerable time. The man stated that he was a homesteader from Michigan, having been here for eight years. He accordingly returned hoping that he would be released from the hospital.

He was in the hospital, he said, because he was insane. He was in the hospital, he said, because he was insane.

HARRY HAWKER BREAKS WING OVER IRELAND

Falls to Win \$25,000 Prize
But Is Awarded Consolation Winning.

London, Aug. 28—Harry Hawker achieved a glorious failure yesterday in his attempt to win "the Daily Mail" prize of \$25,000 for a flight around Great Britain in an all-British water-ski plane within 72 hours. After 15 hours

He fell into the sea close to the coast and was rescued by a fishing boat about 15 miles north of Dublin. He had the time to cover 1,048 miles of the 1,544-mile course, which had to be completed at Southampton by 9.30 a.m. 22nd hour later, if the prize was to be won.

Reports were current last evening that Hawker was seriously injured, but the gallant young pilot sustained nothing worse than bruises. His passenger, the merchant, named Raper, was unhurt.

has a broken arm and cuts on the head but is in no danger.

This is the first serious accident which has occurred in the many "Daily Mail" flying competitions.

Hawker has failed to win the prize of £25,000, but the Daily Mail will present him with a consolation prize of £5,000. Tributes are pouring into London from all parts of the world to the intrepid airman, who is the national hero of England.

—Weston in Chambers

his complete success in no way detracts from the merit of a feat at once memorable and serviceable. The whole competition has been of real value to British flying. Though we started last, we must persevere till first.

Rheumatism

Muscular and Inflammatory—stiff and swollen joints, pains in the back, etc.—promptly relieved.

This potent, penetrating oil gets at the very seat of the trouble, drives out the disease and establishes a normal condition. The standard family remedy for rheumatism for a generation.

NEW CONNAUGHT RAGES WILL BE O.K. NEXT YEAR

Westerners are Starting to Make Good Showing at Ottawa Shoot.

Ottawa, Aug. 28.—If the new Connaught ranges are ready for next year, and it is expected they will be, there will be many changes in the D.C.R. program. The great match, the Governor General's, will be much increased in size. It was pointed out at a competitors meeting, the D.C.R. should have some 15-shot matches as are found at Bisley and as are shot in Palma.

The executive of the association has felt the need of this as well and it has come up on different occasions. With the abundance of target accommodation, as there will be at the new ranges, matches with 15 shots will be introduced. At present the Governor general match, first stage, is 10 shots each at 200, 500 and 600 yards and the second stage seven shots each at 300, 500 and 1,000 yards. It is expected that the first stage will be left as it is, but the second stage will be reduced to two ranges, 900 and 1,000 yards, with 15 shots at each range. In this way the second stage would have 30 shots, on score instead of 21 as is now the case.

It is likely that the Barlow and other matches will also be extended from 10 to 15 shots.

Westerners Starting.
Rock-Ciffe Ranges, Ottawa, Aug. 28.—To date the Westerners have been shaping up very brightly in the D.R.A. but today was a starter for some good showing on the part of the gentlemen from west of the great lakes.

The first range fired this morning was the 400 yards, completing the Bankers-Dominion match. In this event, Sergt. J. V. Austman, of the 90th Winnipeg rifles, tied with three others with a double possible, his score being 70 out of 70. With luck this young shot will hit the Bisley target for next year. The other three with full scores were Sergt. W. E. Browning (43rd), Sergt. A. Poirier, G.D.S.G. and Captain L. O. Van Tass, R.C. These four, together with 81 and shoot off for cup. This event was won last year by Sergt. Weeks, of the 90th.

The conditions today proved to be very erratic, mirage, wind and light playing havoc with many aggregates. Sergt. Major Doherty, I.S.C. R., 90th; L. Battershill, 90th; L. L. Andrews, 90th; Private Ross, 100th; Capt. Selous, 6th D.C.R. and L. H. Blair, 72nd Scottish Highlanders, are high of the western contingent.

Bankers-Dominion.
Westerners winning money in the Bankers-Dominion follow: Seven scores of 65 were counted out.

Another signal success for the men from the west was gained by L. R. M. Blair, 72nd Scottish Highlanders, Vancouver, who has won the Walker trophy at 500 and 900 yards. His card showed a perfect score at each distance. The event is not yet posted but high totals amongst the western men are: Captain Latta, 6th D.C.R., 66; R. L. Snowball, Regina, 67; L. H. MacKay, Saskatoon, 66; Dr. J. A. Clark, Prince Albert, 66; Sergt. J. A. Clark, 90th, 66; Private J. A. Auld, 90th, 66; L. Battershill, 90th, 66; Staff Sergt. B. G. 90th regiment, 66; Gunner Hutchinson, 90th, 66; Gunner Emmerton, 90th B.C.S., 66; J. F. Chesie, Vancouver, R. A., 66.

AVERTS CATTLE SEIZURE.

Fethbridge, Alta., Aug. 28.—By paying over a sum close to \$9,000 to the customs department of the federal government, W. Wallace saved his 3,000 head of cattle from seizure by the authorities. Mrs. Wallace, who is a resident of Fethbridge, had been on an under-valuation of the stock when entered at the port of Coquitla on board from Mexico. This morning the Indians turned over land.

INDIANS TURN OVER LAND.
Fethbridge, Aug. 28.—The Sarcee Indians returned to the reserve today, after a 3,000-acre area of land lying in the north-west corner of the reserve. It will be sold by the government at public auction and the Indians will be paid partly in cash and partly in farm implements.

Dr. Fowler's EXTRACT OF Wild Strawberry

Soon Relieved Their Sufferings. THEIR TROUBLE WAS DIARRHŒA.

Mrs. Edward Kingston, Mirror Alta., writes: "Coming to the North West from B.C. in the summer of 1910 we were face to face with the serious problem of being able to secure good drinking water. This we could not get, so we were obliged to drink water containing a great deal of salt. With the result, we were all troubled with Diarrhoea. We had a bottle of Dr. Fowler's Extract of Wild Strawberry. We immediately used it and our sufferings have since been relieved. We have been since obtaining such beneficial results from it when my boy, as a baby, was similarly treated. It has always proved a friend in need."

Make up your mind to insist on getting "Dr. Fowler's" when you go to your local dealer. Don't accept the cheap "phoney" preparations that some of the unscrupulous dealers try to pass off as "Dr. Fowler's."

See that the name The T. M. Tibbitts Co., Limited, Toronto, Ont., appears on the yellow wrapper. Price 50c.

LATEST PHOTO OF EVELYN NESBIT THAW, AND THAW'S MOTHER WHO IS HEART-BROKEN AT HIS DETENTION.

Mrs. Evelyn Nesbit Thaw, as she is today, and below is a recent photograph of Mrs. Mary Copely Thaw, the loyal old mother of the slayer of Stanford White. Mrs. Thaw is grief-stricken over the fact that her son's flight from Mattawan has been brought to a sudden end by the Canadian authorities. It is said she has announced her intention of sacrificing her entire fortune in fighting to prevent her son's being either deported or extradited.

WILL BORE FOR OIL ON LARGER SCALE IN NORTH

English Syndicate Will Carry on Work on Unprecedented Scale.

LARGEST OIL FIELDS ON AMERICAN CONTINENT
Would Take Years to Get Even Approximate Idea of the Area of Oil Lands Near Fort McMurray.

Within the next six months boring for oil will be commenced in the Fort McMurray district, on a hitherto unprecedented scale, if the report of A. F. Hargrave, Hamilton, oil expert of Victoria, B.C., is approved by the syndicate of English financiers which he represents.

Mr. Robertson, who has been responsible for the locating of some of the most important oil fields which have been discovered in Russia and other parts of Europe, in Asia Minor and in Africa in recent years, has spent the last three months in the Fort McMurray district, prospecting for oil. In the interests of an influential English syndicate, which already has extensive interests in the north country, Mr. Robertson returned to Edmonton Tuesday.

Mr. Robertson, who is a resident of the Hudson's Bay station from the north, and is registered at the hotel George.

That there is a very big future for the whole province of Alberta as an oil producing region was stated by Mr. Robertson. There are evidences that oil is to be found right through the province from the southern boundary to the Arctic circle, and the future possibilities for Alberta, according to Mr. Robertson, are limitless. "How ever," he added, "it would take three years instead of three months to get a real knowledge of the oil fields of the whole province, and I have been confining my attention to the Fort McMurray district."

Forwards Report.
Mr. Robertson stated that he had no doubt that oil existed in sufficient quantities in the whole of the Fort McMurray country, to render boring operations on a very extensive scale profitable and he has forwarded a report in these terms to England.

Oil prospectors have been at work in the McMurray region for several years past, and a number of important fields of oil have been discovered. The reason why boring operations have not been commenced before was explained by Mr. Robertson. In most countries,

FUGITIVE LOSES OBSTACLE RACE

Train and Motorcycle Are Used in Escape and Pursuit of the Runaway.

Brandon, Aug. 28.—Edmund Connelly, sentenced to two months in the provincial jail for theft, made a break for liberty yesterday, bolting down the G.P.R. tracks and climbing on the roof of a caboose of a freight just leaving.

When he got on a motorcycle, Chief Berry caught the train, climbed the caboose, followed his man when he jumped off and recaptured him in the bush.

BELGIAN ARMY PLANS COUNTRY'S DEFENSE

Preparing to Defend Belgium Against a Theoretical Attack From the German Army.

Namur, Belgium, Aug. 28.—The Belgian army began today to work out a plan for the protection of the frontier of Belgium against a theoretical effort of the German army to cross a corner of Belgium in order to invade France. The troops taking part in the maneuvers number 22,775 men and 4,014 officers of all arms. A new feature introduced into the exercises is a column of quick firing cannon drawn by peaks of trained dogs, which are able to penetrate forests and rough country where horses would be useless.

Four military aeroplanes accompany the troops for reconnaissance work.

The surface topography gives a clue as to the exact location of the oil deposits. Owing to the tremendous glacial changes through which the Fort McMurray district has passed, all surface signs are obliterated. The conclusion is that boring may have to be carried out again and again before the oil is discovered. "Of course," said Mr. Hamilton, "such a process can only be undertaken by a syndicate with unlimited funds, and I may say that the men whom I represent are not lacking in that respect." Mr. Hamilton added that the failure of former prospectors to follow up their finds did not arise through any hesitation on their part to risk sinking the initial capital in boring operations, but simply from inability to obtain the necessary funds.

A large number of prospectors are operating throughout the McMurray region, according to Mr. Hamilton. "The majority of them," he stated, "are keeping rather quiet about their finds and their future intentions, but there is no doubt that any concern will be the only one in the field, who we come to get down to work."

INDIANS BEING DEPLETED BY WHITE SCOURGE

Archdeacon Lucas After Spending 30 Years in North Returns to Edmonton.

INDIANS CONSTANTLY NEED MEDICAL HELP
Natives are Leaving Healthy Outdoor Life and Living in Log Huts With Disastrous Results.

After 30 years of missionary work amongst the Indians of the far north, Archdeacon Lucas arrived in Edmonton Tuesday on his way to Winnipeg where he will be ordained bishop of the Mackenzie river diocese. For the past six and one-half years Archdeacon Lucas has been stationed at Fort Simpson.

Missionary work among the Indians of the north according to the archdeacon consists very largely of medical treatment. Mrs. Lucas, who has spent over 20 years with her husband in the north is a trained nurse and has done much for the scattered tribes in the constant fight against tuberculosis. "The white scourge," according to the archdeacon is the most insidious enemy of the Mackenzie river Indian and his ravages have greatly decreased the numbers of natives. With the coming of the white man the Indians are forsaking their old healthy outdoor life and are adopting the insubstantial log hut or the primitive shelter. The unsanitary huts are prolific breeding places for consumption and the disease spreads with incredible rapidity.

Indians and Eskimos form the archdeacon's congregation. A few years ago the two races were not on very friendly terms, the Eskimos having an inherent suspicion of the red man. Now, however, Christianity has brought the two nations together and Eskimo and Indian alike worship at the same communion. "In point of intelligence," the archdeacon stated, "the Eskimo compares very favorably with the Indian. The former have not been so ready to adopt the worse habits of civilization and are a much more robust and healthy race following the chase largely for their living."

Few White People.
"The total population of the Mackenzie river diocese is approximately 5,000. There are not more than 40 white men and five women. Of the Indian tribes the Slavey and Tukudath predominates. Over a thousand of the Indians and Eskimos are members of the Anglican communion, while the remainder belong to the Roman Catholic faith. In the whole of the Mackenzie river diocese there are only three ordained missionaries of the Anglican church, but Archdeacon Lucas hopes to procure the appointment of four additional clergymen while in Winnipeg. Regular missions are conducted at Fort Simpson, Hay River and Fort MacPherson. The archdeacon stated that the Anglican church is carrying on an important educational work amongst the Indians and a boarding school with 40 boy pupils has been established at Hay River.

Archdeacon Lucas, who came straight to the Mackenzie river after having been ordained at Islington college, London, England is an enthusiastic lover of the north country. Motivated by the difficulty in obtaining missionaries for the far north he stated that if a program of the church of England could only realize the charm and value of the work which is being done there, they would have many more volunteers than could possibly be secured.

EDMONTON CREATED AS A NEW DIOCESE
Two Resolutions Passed in Five Minutes Making Two New Dioceses of Anglican Church in Canada.
Winnipeg, Aug. 28.—Within the space of five minutes two resolutions creating the dioceses of Brandon and Edmonton were passed yesterday afternoon by the provincial synod of Rupert's Land. Owing to these proposals having been discussed at length on previous sittings it only needed their reading to receive the assent of the synod.
The afternoon session was opened by Archbishop Matheson, who gave an eloquent address on the history of the provincial synod and the work it had accomplished in the west. He stated that the diocese of Brandon had been appointed for the diocese of Victoria river. He referred to the assistance of the west had received from the Archbishop of London. Canon Murray presented the report on the Mission of Help.
